Notes to Consolidated Financial Statements For the Year Ended December 31, 2022

1. Organization and Nature of Business

Isaak Bond Investments, Inc. and Subsidiary (the "Company") is a Colorado corporation established on March 1, 1977. On July 1, 2010, the Company elected S corporation status. The Company is registered as a broker dealer under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company's primary operation is proprietary trading of municipal and corporate bond securities. The Company's wholly owned subsidiary, Funds Management Corp. ("Management Corp."), has been dormant for several years.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities Exchange Act of 1934 and, accordingly, is exempt from the remaining provisions of that rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clears all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer and promptly transmits all customer funds and securities to the clearing broker-dealer. The Company's clearing broker is Hilltop Securities, Inc. ("Hilltop Securities"). Hilltop Securities carries all of the accounts of customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

2. Summary of Significant Accounting Policies

Principals of Consolidation

The accompanying consolidated financial statement includes the accounts of Isaak Bond Investments, Inc. and its subsidiary, Management Corp. All intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. The Company regularly monitors its positions with, and the credit quality of, the financial institutions with which it invests.

Due from Clearing Broker and Dealers and Other Receivables

Due from clearing broker and dealers are recorded as trades are executed on a trade-date basis. The Company has not provided a reserve for uncollectible accounts, as management believes all receivables are fully collectible.

Revenue Recognition

The Company, as part of a syndicate, underwrites municipal bond offerings pro-rata by contracting to purchase, at the discretion of the lead underwriter, and then sell offerings, if applicable, on a best effort basis. The difference between the price paid and the issue price, the gross underwriting spread, is recognized as pro-rata underwriting income on the trade date of the sale. Commission revenues are recorded by the Company on the trade date reported by the clearing broker with whom it does business. Equity trades are conducted on an agency basis and commission revenues are recorded by the Company on the trade date reported by the clearing broker.

ASC 606 Revenue Recognition

ASC 606, Revenue from Contracts with Customers, was issued on May 28, 2014. ASC 606 provides guidance related to revenue from contracts with customers. Guidance applies to all entities and to all contracts with customers, with the exception of the following transactions noted in ASC 606-10: lease contracts, insurance contracts, financial instruments and other contractual rights or obligations, guarantees, nonmonetary exchanges between entities in the same line of business. The Company applied and adopted ASC 606.

Notes to Consolidated Financial Statements For the Year Ended December 31, 2022

ASC 606 Revenue Recognition (continued)

Revenue is measured based on a consideration specified in a contract with a customer, and excludes any sales incentives and amounts collected on behalf of third parties. The Company recognizes revenue when it satisfies a performance obligation by transferring control over a product or service to a customer. A performance obligation may be satisfied over time or at a point in time. Revenue from a performance obligation satisfied at a point in time is recognized at the point in time that the company determines the customer has obtained control over the promised good or service. The amount of revenue recognized reflects the consideration of which the Company expects to be entitled in exchange for the promised goods or services.

The Company's revenues from contracts with clients subject to ASC 606 represent 5.8% of total revenues classified separately on the consolidated income statement as Commissions and Syndicate underwriting. The remaining revenue not subject to ASC 606 are presented with Principal Transactions, Interest & Other income. The reportable segments of revenue generated by the Company are described below:

Net Gains or Losses on Principal Trades: Included are realized and unrealized gains and losses from proprietary trading and net gains or losses from "riskless" principal transactions. These revenues are not subject to ASC 606.

Commissions: This includes performance obligations related to transactions that are subject to SEA Rule 10b-10 for renumeration that needs to be disclosed. It also includes any transaction when the Company is engaged as an agent. It does not include net gains or losses from transactions made by the Company when acting as a principal, or riskless principal.

Revenue from Underwriting and Selling Group participation: Included is revenue from bond underwritings and selling group participation as a syndicate member.

Interest/Rebate/Dividend Income. Included are rebates and/or interest earned on securities borrowings; margin interest; interest earned from customer bank sweep into FDIC insured products and interest and/or dividends on securities held in the Company's inventory. The revenues and expenses are not subject to ASC 606.

The following table disaggregates the Company's revenue based on the timing of satisfaction of performance obligations for the year ended December 31, 2022:

Performance Obligations Satisfied at a Point in Time	\$ 186,159
Performance Obligations Satisfied Over Time	-
Revenue not subject to ASC 606	 3,023,156
	\$ 3,209,315

Property and Equipment

Property and equipment are stated at cost. Depreciation is provided utilizing straight-line and accelerated methods over the estimated useful lives for owned assets, ranging from three to seven years.

Clearing Deposit and Other Assets

Other assets include \$51,064 deposited with Hilltop Securities to offset certain risks assumed by Hilltop Securities related to the clearing and settling of securities and cash transactions on behalf of the Company.

Leases & Commitments

In accordance with ASC 842, the Company recognizes the right of use (ROU) assets and lease liabilities on the statement of financial condition for all leases with terms longer than 12 months. The lessee asset is equal to the minimum payments under the lease, discounted to present value, as well as a liability reflecting its lease obligation. The cost of equipment under finance leases is included in the consolidated statement of financial condition as property and equipment. Amortization of assets under finance leases is included in depreciation expense.

Concentrations of Credit Risk

Financial instruments, which potentially subject the Company to concentration of credit risk, consist principally of cash and securities owned. The Company places its temporary cash investments with what management believes are high-credit, quality financial institutions. Securities owned consist primarily of municipal and corporate bond securities invested in a diversified portfolio of bond positions.

Notes to Consolidated Financial Statements For the Year Ended December 31, 2022

Concentrations of Credit Risk (continued)

Securities transactions are initiated on a fully disclosed basis with Hilltop Securities. Under the terms of the clearing agreement, the Company is ultimately responsible for the executing of transactions and the contractual obligations thereunder. In conjunction with the clearing broker, the Company seeks to control the risks of activities and is required to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the Company may be required to deposit additional collateral or reduce positions when necessary.

The Company is engaged in various trading and brokerage activities where counterparties primarily include broker-dealers, banks, and other financial institutions. In the event these counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty of issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

Market risk arises due to fluctuations in interest rates and market prices that may result in changes in the values of trading instruments. The Company manages its exposure to market risk resulting from trading activities through its risk management function. Risk reports are reviewed daily by management to mitigate market risk.

Derivative Financial Instruments

Derivative financial instruments used for trading purposes are carried at fair value. These derivative instruments consist principally of future contracts to purchase or sell government securities. Fair values are based upon quoted market prices. The fair value of those financial instruments is recorded in securities owned or due to clearing broker, as appropriate.

Fair Value Accounting

The Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

- Level 1: Quoted prices in active markets for identical assets or liabilities;
- Level 2: Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or
- Level 3: Unobservable inputs in which there is little or no market data, which requires the reporting entity to develop its own assumptions.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Securities Owned

Municipal securities owned and investment securities are valued at fair value based on trade activity within a publicly observable marketplace.

Notes to Consolidated Financial Statements For the Year Ended December 31, 2022

Income Taxes

The Company has elected to be treated as an S corporation for income tax purposes. Accordingly, taxable income and losses of the Company are reported on the income tax returns of the Company's stockholders, and no provision for income taxes has been recorded in the accompanying consolidated financial statement.

The Company follows the guidance of ASC Topic 740, *Accounting for Uncertainty in Income Taxes*. ASC Topic 740 prescribes a more-likely-than-not recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on the related derecognition, classification, interest and penalties, accounting for interim periods, and disclosure and transition of uncertain tax positions.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statement. Actual results could differ from those estimates.

Note 2 - Fair Value Accounting

The following table sets forth by level, within the fair value hierarchy, the Company's investment assets and liabilities at fair value on a recurring basis as of December 31, 2022:

Investment Assets	L	evel 1	Le	evel 2	Le	vel 3	Total
US Treasuries	\$	-	\$		\$	-	\$ -
Municipal bonds		-	3,	182,458		-	3,182,458
Corporate bonds		-	6,	687,151		-	6,687,151
Total	\$	-	\$ 9,	869,609	\$	-	\$ 9,869,609
Investment Liabilites	L	evel 1	Le	evel 2	Le	vel 3	Total
US Treasuries	\$ 1,	412,797	\$	-	\$	-	\$ 1,412,797

Corporate bonds		-		-		-	-
Total	\$ 6,	745,242	\$	-	\$		\$ 6,745,242

The Company values US Treasuries based on readily available marketplace quotes from Treasury dealers based on a high volume of specified securities. Municipal and corporate bonds are valued based on trades of the bonds within a publicly observable marketplace. The bond market is based on negotiated contracts between a limited number of parties rather than high-volume exchange transactions. The pricing of bonds can be determined through review of transactions involving the specified bond or a like-kind bond. US Treasury futures contracts are derivatives that are valued at market based on the underlying US Treasuries.

Gains and losses (realized and unrealized) included in earnings for the year ended December 31, 2022 are reported in trading revenues and in other revenues as follows:

		Trading	
		Revenues	Interest
Total gains or losses included in earnings for	•	·	<u> </u>
the year ended December 31, 2022	\$	2,596,760	\$ 415,878

Note 3 - Due to Clearing Broker

The Company clears its proprietary trades through another broker-dealer. The Company is required to maintain securities reserve and other collateral accounts with the Company's broker with a balance at all times equal to or greater than the margin requirement on the underlying securities. At December 31, 2022, the Company maintained \$2,655,198 in these accounts. This amount is netted against the amount payable to the broker-dealer. This payable is collateralized by securities owned by the Company. The Company met all margin requirements, as determined by the clearing broker, as of December 31, 2022.

Notes to Consolidated Financial Statements For the Year Ended December 31, 2022

Note 4 - Commitments

Operating Leases

The Company leases facilities under non-cancelable operating leases. Rent expense for these leases were \$63,275 for the year ended December 31, 2022

Future minimum lease payments under these leases are approximately as follows:

Year Ending December 31

2023	44,487
2024	 18,736
	\$ 63,223

Note 5 - Finance Leases - Future Minimum Lease Payments
